EDUCATION

The Pennsylvania State University, University Park, PA
Bachelor of Science, Human-Center Design and Development
Focus: Data Science
Dean's List: Fall 2023

Graduated: May 2026
GPA: 3.24

WORK EXPERIENCE

The Pennsylvania State University

Jan. 2026 – April 2026

Web Development & Educational Technology Intern

- Developed a Python-based workflow automation tool that organized Outlook emails using keyword detection and sender filtering.
- Integrated the tool with the OpenAI API to generate draft email responses for review before sending.
- Automated processing through Windows Task Scheduler to support near real-time email sorting and draft creation.
- Assisted with accessibility-focused updates to university webpages and instructional materials.

The Salvation Army

May 2025 – July 2025

Web Communications Intern

- Assisted with website updates and user experience improvements for organizational web pages.
- Created wireframes and basic prototypes in Figma to communicate design ideas and page layouts.
- Participated in usability testing and gathered feedback to help improve user navigation and engagement.
- Worked with team members in an Agile-style environment to support ongoing website projects and updates.

The Pennsylvania State University

Jan. 2025 – July 2025

AI Prompt Engineer

- Helped develop a stock sentiment analysis project using Python and financial news data.
- Used APIs, Streamlit, and data visualization tools to create a simple interactive dashboard.
- Collaborated with peers using GitHub for version control and project organization.
- Strengthened programming and problem-solving skills through iterative testing and prototyping.

The Pennsylvania State University, University Park, PA

Aug. 2024 – Dec. 2024

Learning Assistant

- Supported students in understanding introductory concepts related to databases, data structures, and data analysis.
- Assisted with classroom activities and answered student questions during lab sessions.
- Communicated technical concepts in a more approachable and student-friendly way.
- Encouraged collaboration and participation among students during coursework and projects.

SPI Pharma – Associated British Foods (ABFI), Wilmington, DE

May 2023 – Aug. 2023

Digital Marketing Analyst Intern

- Assisted with UX and digital marketing projects by creating mockups and reviewing user feedback.
- Used Figma and analytics tools to support website and engagement improvements.
- Participated in team meetings and Agile-style workflows to contribute ideas and revisions.
- Gained experience collaborating with developers, designers, and marketing team members.
